THE PRESIDENT.

Since our last issue, the absorbing theme for the newspapers has been the dition of the President. Public in terest has centered around this one subect, and almost everything else has been lost sight of. We are more than gratifled to be able to state to our readers that hopeful words continue to comfrom the physicians and watchers at the bedside of the President. Twelve days have elapsed since he was wounded and no unfavorable symptoms have developed, and encouragement based upon this fact, justifies the hope that he will survive the assassin's bullet.

Several of the more dangerous phases of the case, such as peritonitis and second hemorrhage, have been passed with safety, but it should be remembered that the course and lodging place of the bullet has not yet been definitely ascertained, and that ether crises are to be the first time since he was shot. The passed before doubt ceases. There has been no material reduction of the pulse, temperature or respiration, and the grounds upon which the statement of physicians that he is steadily improving is based may not be altegether apparent to the public; but we presume that they are to be found in the fact that the nutural process of healing is proceeding sitisfactorily, and that he takes more nourishmen and sleeps better as the days pass. Nature is taking its method a id must be allowed to take its own time. The President is utilizing his splendid physical powers and his un and it is fervently hoped that his ac- Railroad, has completed its work and him in this greatest battle

GOVERNOR'S OFFICE, COLUMBUS, July 10.

Present indications strongly encour age hope that the President will recover from the effects of the horrible attempt upon his life. It must occur to all that it would be most fitting for the Governors of the several States and Territorie to issue proclamations setting apart a day to be generally agreed upon for thanksgiving and praise to Almighty God for the deliverance of our Presiident, and for the great evidence of this goodness to the nation. If this suggestion meets your approbation, permit me to name the Governors of New York. to be so observed. Please reply.

The leading Scientist of to day agree that most disease are caused by disordered Kidners or Liver. If, therefore, the Kidneys and Liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a POSITIVE REMEDY for all the diseases that cause pains in the lower part of the body—for Torpid Liver, Headsches, Jaundloe, Dizsiness, Gravel, Fever, Ague, Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.
